Stellenangebote von SPIE Germany Switzerland Austria

ÜBER SPIE

Bonjour, Servus, Grüezi und Hallo, wir sind SPIE Germany Switzerland Austria. Wir – das sind 20.000 Technikbegeisterte an 750 Standorten in Deutschland, der Schweiz, Österreich und darüber hinaus, die sich gemeinsam mit unseren Kunden für eine klimafreundliche und digitale Zukunft stark machen. Mit unserer umfassenden Expertise und Begeisterung für technische Dienstleistungen geben wir das Beste für unsere Kunden – jeden Tag, in jedem Projekt.

SPIE Germany Switzerland Austria ist eine Unternehmenseinheit der SPIE Gruppe, dem unabhängigen europäischen Marktführer für multitechnische Dienstleistungen in den Bereichen Energie und Kommunikation.

As part of the SPIE Industry Service & Wind business unit within SPIE Germany Switzerland Austria, SPIE Wind brings together comprehensive expertise in onshore and offshore wind energy. Our services cover the entire lifecycle of wind turbines – from installation and commissioning to service, maintenance, repair, and modernization.

Haven't found a suitable position among our current job openings but would still like to become part of our team?

Whether you're supporting us in the office, managing projects, or working directly on wind turbines in the field, we're looking for committed people who take responsibility, act reliably, and are passionate about contributing to the energy transition.

Take the next step in your career and help us shape the future of wind energy. We look forward to getting to know you!

Unsolicited application m/f/d

Einsatzort: Bremen, Deutschlandweit, Europaweit

Kennziffer: 2025-1849

Arbeitszeit: Vollzeit (unbefristet)

Unternehmen: SPIE Wind Germany GmbH

Aufgaben

Depending on your qualifications and area of expertise, opportunities may include:

- Technical service (maintenance, repair, rotor blades, commissioning)
- Work on onshore or offshore wind turbines
- Project support, tender management, or sales
- Roles in accounting, administration, or business support

Profil

- A completed technical or commercial vocational qualification, or a comparable qualification
- Motivation to take on responsibility and work collaboratively as part of a team
- A self-driven, structured working style and strong communication skills
- Willingness to travel and the ability to work at heights (for technical positions)
- Previous experience in the wind energy industry is an advantage, but not essential

Wir bieten

- The opportunity to actively contribute to the energy transition
- A high degree of responsibility and creative freedom within a motivated and growing team
- Varied assignments outdoors, with great views – quite literally
- Independent work and diverse responsibilities
- Permanent employment contract with up to 30 days of paid vacation
- Attractive compensation and a comprehensive benefits package
- Individual health and wellbeing support, including corporate fitness and bicycle leasing
- Company Social Services
- High-quality personal protective equipment (PPE) and tools
- Good people know good people – employee referral program
- Comprehensive training and professional development opportunities
